

FYRE DECK[®]

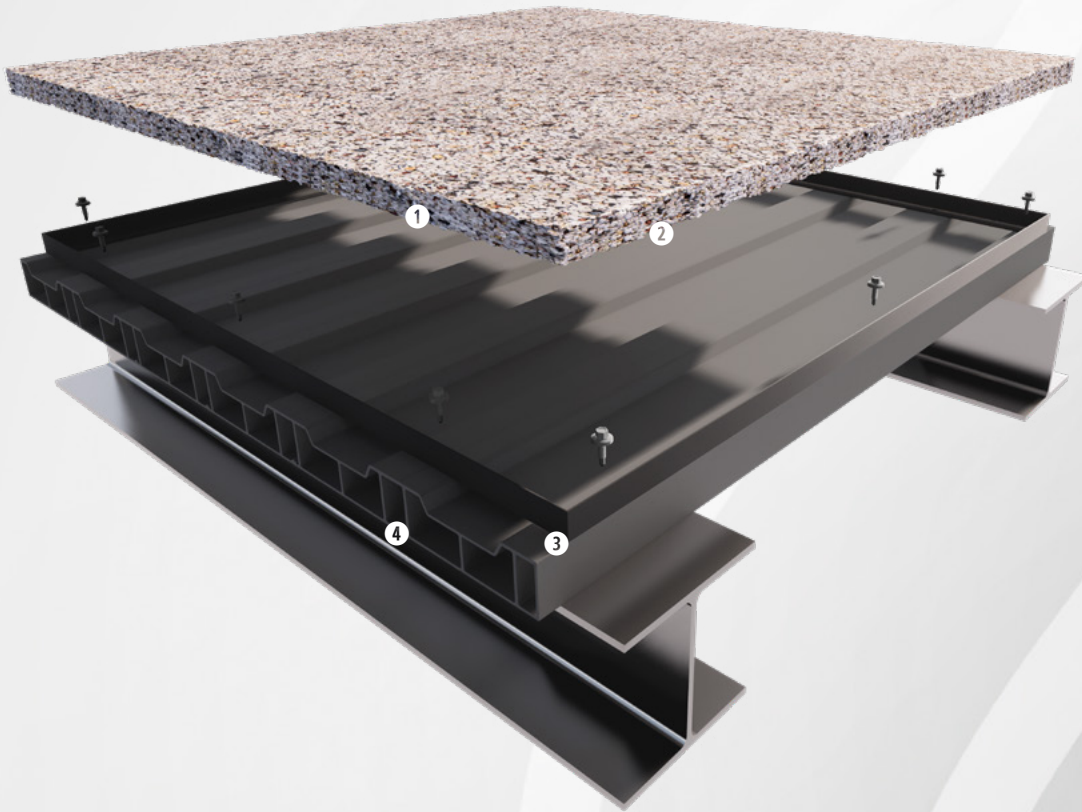

FLOW

Patent application number 190092GB

FYRE DECK[®] FLOW is our patent pending resin bound aggregate flooring system. Our premium solution – it's the perfect solution for any balcony or terrace area. The structurally engineered aluminium planking boards work in harmony with the aggregate to actively manage water.

Slip resistant, slim, sustainable and safe.

- Patented non-combustible resin
- Porous construction
- Recycled aluminium bearers
- Ideal for balconies

1 Non-Combustible Resin

- Patented formula
- Low maintenance
- Wide range of finishes

2 Attention to Detail

- Edge trimming
- No fixings

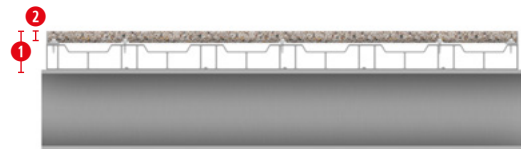

3 Smart Fixing

- Seamless fixings with edge to edge fill

4 High Strength Support

- Engineered structural planking boards
- Active water management

System Height Overview

1. 150mm max (to suit) 2. 20mm
